Dear RC Movers:

Thank you so much for everything you have done for my son and I. I do not know how long you have been in business for, but you people are amazing!

I have had to hire many moving companies in the past and none of them is able to stand in the same ball field as you all. Every other moving company charged me more money after the job was done than their original quote. All other companies' came with three people and at least one of them was so hung-over or sick he did not do anything but 'supervise'. One company advertised they were a family company but the three people who showed up had serious attitudes towards their non-related employer and were obviously taking it out on their work performance - and I got stuck with them.

This time, I bought a house here in Okotoks, from a wonderful couple who recommended you for moving. As I always try to shop local, I thought I better give you a try. However, I had many worries as this move was going to be the worst yet and with too many extras to think about. You and your wife came to the house in Calgary, listened to what needed to be done. Understanding that there was a week lapse in possession dates for the sale and purchase, yet the buyers of my Calgary house were letting me store my stuff in the garage for a week. So, you essentially moved me twice and a week apart.

When your quote was half of every other move I had in the past, I was both excited and scared. But you did the job well, adding some extra touches of your own to ease my stress. Another perk that no other moving company has ever done.

Finally, the moment of truth. The move was completed and I needed to pay you. How much did you charge? Exactly what you quoted me!

I was shocked then, and now that I have had time to unpack and settle in, I feel guilty at how little I paid you.

You are an awesome team, and I hope your business approach becomes the goal for every other moving company out there.

Thank you so much!!

Jen Bagstad
